

CUSTOMIZE YOUR CLIMATE – AND CONTROLS – WITH THE NEW UNIVERSAL CONTROL PANEL FROM INFRA TECH.

[JANUARY 11, 2018] GARDENA, CA - As a pioneer and leader in infrared comfort heat, Infratech strives to offer customers leading-edge convenience, quality, performance and style. Today, we're excited to announce the latest addition to our extensive line of custom control options – the Universal Control Panel. Now, customers and design purists alike have a new option when specifying Infratech heaters – the ability to select the switches of your choice, for a look that seamlessly integrates with the décor of your property.

Great design meets Universal Control.

- The exclusive Universal Control Panel allows you to install and control your Infratech heaters using any 120V lighting dimmer of your choice, to coordinate with your home or commercial property's décor.
- Infratech's Universal Control includes a standard 120V Universal Slide Dimmer for convenience (timer optional), which can be easily replaced with any dimmer of your choice to offer the features you would like for your design versatility.
- The Universal Control, also allows you to remotely control your heating system from a smart phone or tablet via a Wi-Fi / Bluetooth® compatible device that can be purchased to gain this function.
- To learn more about our new Universal Control Panel and view the full custom control lineup, create multiple heating zones – an ideal feature for larger residential or commercial properties.

Infratech offers the widest range of custom control options in our industry.

When you specify an Infratech heating system, you can choose from a wide range of controls that offer the flexibility and functionality to best meet the needs of any upscale residence.

Our broad range of control options also includes:

Solid State Control Packages

From balconies to outdoor kitchens to pool decks, these custom control packages are ideal for large-scale properties requiring multiple climate zones.

Home Management Panel

A great choice for the smart home. Infratech's Home Management System lets you seamlessly integrate Infratech heaters into your smart home system, for ultimate convenience and efficiency.

All Three of Infratech's Custom Control Options:

- Offer the ability to create multiple heating zones – an ideal feature for larger residential or commercial properties.
- Create the option to adjust heating intensity, optional timer functions, and maximize energy efficiency and ease of operation.
- The Relay Panels are Custom built - job specific to your project.
- Infratech is a 508 UL Listed Manufacturer, all our Custom Controls are UL Listed, and tested to align with our quality standards before leaving our factory.
