

## SPEND MORE TIME IN COMFORT OUTDOORS IN THE NEW YEAR WITH INFRATECH HEATERS.

[OCTOBER 13, 2015] GARDENA, CA – Need some inspiration for those home improvement New Year’s resolutions? Whether it’s striving to create a more eco-friendly home, achieve smart home integration, remodel an existing space or construct a new outdoor living structure, homeowners can now enjoy enhanced comfort, versatility, functionality and efficiency with Infratech heating systems.

### How can Infratech heaters be used to upgrade a residential property?

- By expanding the outdoor living season by months in cooler climates, and year-round in warmer areas – something to look forward to in the depths of January.
- Four versatile mounting options – including flush mounting, ceiling mounting, wall mounting or pole mounting – make Infratech heaters ideal for use in spaces like patios, terraces, gazebos, outdoor living rooms or kitchens, pool decks, or free-standing structures like man-caves, she sheds or bar sheds.
- With easy installation and a seamless presentation, Infratech’s flush mounting option is a perfect fit for new construction projects. Choose the ceiling mount option for a retrofit project.
- Infratech heating systems come with a variety of control options that can be integrated into popular smart home systems from Lutron™, Crestron™, and Control 4™, among others. This brings the convenience of programming and maintaining home settings from a centralized control station to the home.
- Energy-efficient Infratech heaters operate for only pennies a day, for reduced energy bills during colder months.
- With no harsh odors, emissions or negative environmental effects, Infratech heaters are an eco-friendly heating solution for indoor/outdoor spaces in green homes.
