

## CREATE EFFORTLESS ENTERTAINING SPACES FOR SUMMER WITH SMART HOME INTEGRATION FROM INFRA TECH.

Infratech's simple interface uses a 0-10 V DC signal for streamlined installation and straightforward programming

[MARCH 10, 2015] GARDENA, CA – Today, increasing numbers of homeowners are incorporating smart home integration into their energy management systems. New market research has indicated that the market for smart home integration is expected to reach \$58.68 billion by 2020, driven by segments that include energy management, security and access control systems.<sup>1</sup> Adding smart home integration to your indoor and outdoor space design can offer a host of benefits, particularly as temperatures rise. Think beyond your home's interior and optimize energy efficiency, while increasing comfort and adding customized convenience to outdoor entertaining for cool summer evenings when you add an Infratech heating system to your smart home.

### With Infratech smart home integration, you can:

- Save preferred heat settings for off-site control from a mobile device, so your patio, terrace or balcony will be the perfect temperature when you arrive home.
- Use a mobile device to monitor energy usage or set vacation timers.
- Enjoy a simple, user-friendly interface that offers streamlined installation and straightforward programming.
- Choose from a range of control options that are compatible with top-selling systems like Lutron™, Crestron™, Control 4™, and others.
- Coordinate Infratech heaters with air conditioning, automated awnings, lighting, and music when hosting barbecues, graduation or summer celebrations for Memorial Day, Fourth of July, or Labor Day.

### Three simple steps for Infratech + smart home setup:

**STEP 1:** Select the Home Management System that provides the best functionality for your lifestyle.

**STEP 2:** Install the Infratech heater or heating system that best complements the needs of your space.

**STEP 3:** Connect your Infratech heating control to the smart control panel, with the assistance of a licensed electrician.
