

## ADD MORE WARMTH TO OUTDOOR HOLIDAY ENTERTAINING WITH INFRA TECH HEATERS.

[AUGUST 16, 2016] GARDENA, CA – What's the one element essential to warm, welcoming outdoor entertaining this holiday season? An Infratech heating system. Energy-efficient, eco-friendly electric infrared heat lets you and your guests enjoy customized comfort in spaces like outdoor kitchens, living rooms, sunrooms, terraces, patios and poolside cabanas. Infratech heaters operate with virtually no maintenance. They are compatible with top-selling Smart Home management systems, giving you the convenience of programming settings through your mobile device and controlling the heat without leaving your seat. And an Infratech heating system can enable you to extend the outdoor entertaining season at your home for an average of 100 more nights per year.

Now you can welcome friends and family outside for holiday celebrations, impromptu gatherings and other memorable moments.

- Invite extended family to Thanksgiving dinner on the patio, and enjoy the colors and flavors of the season.
- Savor cocktails and hors d'oeuvres outside, at a Christmas or Hanukkah-themed open house.
- Sip egg nog and sing holiday carols around a firepit.
- Host a holiday decorating party in your front or back yard.
- Welcome friends to a New Year's Eve make-your-own pizza party in your outdoor kitchen.
- Enjoy an al fresco New Year's Day brunch in the sunroom.
