

## NOTHING COMPLEMENTS AN OUTDOOR KITCHEN DESIGN LIKE AN INFRATECH HEATING SYSTEM.

[MAY 27, 2014] GARDENA, CA – Building your dream outdoor kitchen? After you've picked out your appliances, countertops, tile and seating, don't forget the last ingredient: an Infratech heating system. Now you can add customized climate control and ambient warmth to your outdoor kitchen. It's the perfect reason to linger longer under the stars after a delicious dinner on a cool summer evening – or extend the outdoor living season, come spring or fall.

There are lots of reasons why Infratech and outdoor kitchens go together like the elements of a well-planned gathering. Here are just a few:

### CUSTOM COLOR OPTIONS

You've spent a lot of time choosing the perfect textures, colors and accents for your outdoor kitchen. Infratech heaters come in a variety of colors – including custom options – and can be coordinated to complement or match your appliances, ceiling treatment, wall or tile colors.

### MOUNTING OPTIONS

A wide variety of mounting options is among the reasons why Infratech heaters are a favorite of interior designers and architects. Whether you're heating a sitting area, dining table or bar, you can choose from flush, pole, wall or ceiling mounting options, to best complement the look, structure and functionality required for your space.

### ECO-FRIENDLY, AMBIENT WARMTH

Infratech infrared heaters are 90% energy efficient, and emit a subtle, pleasing glow that will not blow away in windy conditions. They provide odorless, ambient, radiant warmth for your space that won't detract from the aroma of steaks on the grill, or flickering candlelight on your table.

### EFFICIENT, EASY MAINTENANCE

Infratech heating systems are simple and inexpensive to maintain. They're as easy to operate as flicking a switch, and can be installed with a wide range of customized control options. In addition, Infratech heaters operate for only pennies per hour. You'll never have to worry about refilling propane tanks again.

### ABOUT INFRATECH

Infratech has been a pioneer and leader in infrared technology for more than 50 years. We offer a wide range of infrared heating products that bring casual comfort to upscale restaurants, hospitality and retail establishments, as well as private homes.
